How to Assemble an Academic Team

- Academic Team = 4 primary members and 2 alternates (online only)
- Cadets may be Juniors (11th grade), Sophomores (10th grade) or Freshmen (9th grade)
- NO seniors may participate

Each JROTC unit will be allowed one team consisting of **four cadets** – they may be freshmen, sophomores or juniors. Seniors may not be included on the team. Two alternates may be named and may participate in the online testing. However, if your unit is eligible to participate in the final competition in Washington, DC, **only four team members may attend JLAB. New this year, alternates will not be allowed to attend; however, we will be live streaming many of the main events during JLAB including the NJROTC Championship and Joint Service Championship.**

Selecting Team Members

Instructors may assess and select potential team members using the following criteria –

- Peer selection boards (e.g. interviews, essays)
- Teacher or school recommendations
- GPA
- Performance on the Practice Test (details below)
- Overall enthusiasm for the competition

PRACTICE TEST (October 1-25)

The Practice Test is taken individually, not as a team, and consists of 25 questions similar to those questions in Levels I and II. There is NO charge for the Practice Test and it is open to all cadets in the unit. The Practice Test is open to all cadets in the unit and is a great way to evaluate your entire unit's understanding of JROTC curriculum and general subjects. We encourage all cadets in the unit to take the Practice Test at an internet-accessible computer either in the classroom, at home, in the library, or other location. The cadets should logon to www.cofcontests.com, select Navy Academic Bowl, answer the questions, and print out their scores to turn in to the instructor. COF does not retain Practice Test scores. **It is up to each instructor to review the scores and determine members of the team.**

How to Prepare the Team

One of the main goals of the JROTC Academic Bowl is to prepare students for state exit/graduation exams as well as college entrance exams, such as the SAT and ACT. However, many JROTC instructors are understandably interested in measuring how well their cadets are learning the JROTC curriculum. Therefore, we will have a mix of JROTC curriculum as well as English, Math, and Science in each level of the competition. The JROTC curriculum questions will focus primarily on leadership preparation, wellness and fitness, group/team dynamics and communication skills. A few questions about current events are also included – focusing on national and international news, particularly international relations, politics, business, and science. All of the current events questions will be taken from major media available on television, the internet, and in daily newspapers (see suggested resources below).

Level I includes 25% JROTC questions, 65% SAT/ACT-type questions, and 10% current events questions.

Level II includes 15% JROTC questions, 75% SAT/ACT-type questions, and 10% current events questions.

We encourage all cadets, whether they are on the academic team or not, to prepare for the ACT, SAT, and ASVAB tests by reviewing English, Science, and Math coursework. There are several resources available, free-of-charge, to all students.
