How to Assemble an Academic Team

- Academic Team = 4 primary members and 2 alternates (alternates participate in the online competition only)
- Team members may be current juniors (11th grade), sophomores (10th grade) or freshmen (9th grade)
- NO seniors may participate

Each JROTC unit will be allowed one team consisting of **four cadets** – they may be freshmen, sophomores or juniors. **Seniors may not participate on the team.** Two alternates may be named and may participate in the online testing only however alternates are not required. If your unit is eligible to participate in the final competition in Washington, DC, **only four team members may attend JLAB. Alternates are not allowed to attend; however, we will be live streaming many of the main events during JLAB including the AFJROTC Championship and Joint Service Championship.**

Instructors may assess and select potential team members using the following criteria –

- Peer selection boards (e.g. interviews, essays)
- Teacher or school recommendations
- GPA
- Performance on the Practice Test (details below)
- Overall enthusiasm for the competition

PRACTICE TEST (October 1-25)

The Practice Test is taken individually, not as a team. It consists of 25 questions (from a bank of 50 questions so cadets may take the test multiple times) similar to those questions in Levels I and II. The test is open to all cadets and is a great way to evaluate your entire unit's understanding of JROTC curriculum and general subjects. We encourage all cadets in the unit to take the Practice Test at an internet-accessible computer in the classroom or other convenient location. Instruct cadets to logon to www.cofcontests.com, select **Air Force** and **Practice Test**; register, take the test, and print out their scores to turn in to the instructor. **COF does not retain Practice Test scores. It is up to each instructor to review the scores and determine members of the team.**

How to Prepare the Team

One of the main goals of the JROTC Academic Bowl is to prepare students for state exit/graduation exams as well as college entrance exams, such as the SAT and ACT. However, many JROTC instructors are understandably interested in measuring how well their cadets are learning the JROTC curriculum. Therefore, we will have a mix of JROTC curriculum as well as English, math, and science in each level of the competition. A few questions about current events are also included – focusing on national and international news, particularly international relations, politics, business, and science. All of the current events questions will be taken from major media available on television, the internet, and in daily newspapers (see suggested resources below).

Level I includes 25% JROTC questions, 65% SAT/ACT-type questions, and 10% current events questions.

Level II includes 15% JROTC questions, 75% SAT/ACT-type questions, and 10% current events questions. **NEW: A total of 2-3 questions will come from the following USAA Educational Foundation videos:**

Opening Your First Bank Account - <https://vimeo.com/257540781/becc571fb2>

Making Money Work for You - <https://vimeo.com/257540735>

How Time Builds Wealth - <https://vimeo.com/269913995>

We encourage all cadets, whether they are on the academic team or not, to check out the videos from USAA and to prepare for the ACT, SAT, and ASVAB tests by reviewing English, science, and math coursework. There are several resources available, free-of-charge, to all students.

Level III – The Championship

The top 16 teams (based on Level II scores) will be invited to participate in Level III - The Championship! Teams with top scores from each division will receive an invitation to Washington, DC. If there is a tie in Level II for one of the spots, the tie-breaker will be the Level I – Section 2 score (SAT/ACT portion).

Teams will be allowed to bring four cadets and one instructor to the Championship. Additional male and female chaperones will be on staff at JLAB; however, a female chaperone from the high school may also attend if required by the school administration. Alternates are NOT allowed to attend JLAB 2019.

Travel costs, gas prices, additional airline fees and most importantly, cuts in educational funding, require that we are all as frugal as possible in our travel arrangements. All travel costs directly related to the event will be covered, but we will endeavor to minimize travel costs where possible and we hope the instructors will assist us in that area.

Team travel expenses will be individually calculated based on your location and mode of transportation. Travel expenses that are covered include:

1. airfare or mileage (if driving)
2. ground transportation to/from Washington, DC airport to competition site
3. incidentals – baggage, tips, etc.
